Tuesday, May 27, 2003

Overview of the Kentucky OSH Program8:30 AM – 11:30 AM (Course #127)

This session discusses the obligation to provide a safe and healthy workplace, free from recognized hazards. Topics of discussion include the operations of the Kentucky Occupational Safety and Health Program, including enforcement and voluntary compliance services, safety and health topics currently being considered for future standards and policies.

Hazard Communication.....1:00 PM-4:00 PM (Course#208)

This session explains the requirements related to employees' "Right to Know" about the hazards of chemicals, which are used in the workplace. Topics of discussions include chemical hazard determination, written hazard communications programs, Container labeling, material safety data sheets (MSDS), and employee training.

Wednesday, May 28, 2003

Injury and Illness Recordkeeping Requirements.....8:30 AM-11:30 AM (Course #401)

This session is for those persons responsible for maintaining the revised injury and illness records. The new forms 300, 301, 300A will be covered. The new regulations and guidelines for recordkeeping will be discussed, as well as the compliance directive the Kentucky OSH compliance officer will use to evaluate your records. A recordkeeping example workshop will be part of the course, time permitting.

Fire Protection and Means of Egress.....1:00 PM-4:00 PM (Course #123)

This course introduces the participant to the recognition of potential fire hazards and emergency procedures. Topics include the chemistry of fire, types and effectiveness of extinguishing agents, means of egress, detection and alarm systems, fire brigades, fire prevention plans. 29 CFR 1910, Subparts E and L, and references NFPA codes provide the basis for the course.

Thursday, May 29, 2003

Lockout/Tagout.....8:30AM-11:30AM Course #113)

This course familiarizes the participant with Kentucky's version of the adopted lockout/tagout standard. It demonstrates the LOCKOUT and TAGOUT methods relating to the various hazardous energy sources associated with machinery, equipment, and processes used in industry. Topics addressed include training requirements, documentation required, hardware, and group lockout procedures.

Electrical Safety1:00 PM-4:00 PM (Course #109)

This course is designed to familiarize participants with KOSH's electrical standards and the potential hazards associated with electrical installations and equipment. Topics include cord-and plug-connected and fixed equipment, grounding, ground fault circuit interrupters, and portable generators.

Friday, May 30, 2003

Portable Hand & Powered Tool Safety.....8:30 AM - 11:30 AM Course #308)

This course covers the hazards and regulations associated with small tools including electric, pneumatic, hydraulic, and explosive actuated applications. The basis of this course is Subpart P of the 1910 standards.

NOTE: Complete one form for each registrant attending class. Photo copies are acceptable. Please submit registration by May 21, 2003. No confirmation of registration will be sent. All courses are **COST FREE**.
